- Available in 2,000lb & 4,000lb capacity

ROLLER COASTER™ CARGO SLIDE

*Shown in HPI Black finish. Available in Silverback or HPI Black

It's no fun crawling in the back of your pickup or reaching over the side to get a 5-gallon bucket of paint, a tool box, golf clubs, groceries, or...? Especially if you have a camper shell or Tonneau cover. It's not that it's heavy, it's an awkward lifting position your body was not made for. (Those are the ones that get ya!)

With a Roller Coaster™ everything easily rolls out to where it can be reached! The Roller Coaster™ works great in pickup trucks, vans, service bodies, motor homes, and fifth wheel trailers. Your friends will be in awe when you pull out everything in the back of your truck with one hand. Your back will love it too.

Proudly Made in the U.S.A.
